

Sk8 SCHOOL

July 11th 2018

Alberto Montes Toledo
Sk8 School Director
Santiago de Surco, Lima-Peru

Our Sk8 School was born with the mission to promote, spread and centralize skateboarding all over Peru. We are a team formed by the best local skaters and talents, whom give all for our students.

It was really great to have Mr. Jay Mandarino teaching us and certifying us on new techniques and having international support by ISCP (International Skateboard Certification Program) SKATZ (Stance, Kicks, Axle, Transfers and Zen.)

As well, I have been trained as an Instructor/Facilitator with the ability to teach, train and certify new instructors in our country.

All of our instructors participated with much enthusiasm and it's clear that we all have developed and improved our self-confidence and leadership skills.

Sk8 School is proud to serve our students by certified instructors, thanks again to Jay as he became more than a teacher he also is now a close friend for all of us.

I would recommend Jay and the ISCP to anybody in any city or country out there!

Keep having fun skateboarding, pushing, teaching and learning!
